LAMBLEY'S OUEER

Firefly Captures the Opening Event from Jack Star.

deal to do with it.

Firefly, notwithstanding his poor showing the other day, was a red-hot favorite in the opening event. He opened at even money, and was backed down to 3 to 5. Jack Star and Jaweller were even-up second choices until near the close, when Jack Star was until near the close, when Jack Star was money again. Ten to one could be secured against \$L\$ Hubert and Noonday, Firedy won very easily, and Jack Star was second. Lithbert came strong at the finish and got third money by a narrow margin.

Prince George was a prohibitive favorite in the second race, but Sam Bryant hussled him so lively in the stretch that Lambley was lively in the stretch that Lambley was long to win by a head. the second race, but Sam Bryant hustled him so lively in the stretch that Lambiey was ferced to punish Prince George in lively fashion to win by a head. Sam Bryant was second choice. The imperatrice filly was a poor third.

Alcalde was a red-not favorite in the third race, and it looked all over but the shouting. Airshaft was second choice, but was not heavily played except for place. The others were at long prices. Alcalde was ridden very queerly, and Jockey Lambley should certainly be called to account. He pulled Alcalde back at least half a dozen lengths in the backstretch, and then made a big bluff to win. Airshaft, Mike Dwyer's horse, won handily, and Alcalde just beat Casanova out for the place.

During the last week the strike has become of much wider scope than was deemed possible at the outset. It has developed proportions that include all the manifold trades employed in building construction excepting the bricklayers and the plumbers' associations. These two organizations only hold aloof and refuse to interfere in favor of one or

A total of sixty-eight of the principa buildings in course of construction in the city are tied up, and it is, besides, impossible under existing conditions to proceed satisfactorily with hundreds of other jobs giving employment to smaller numbers of artisans add laborers.

Between 15,000 and 20,000 men are idle as a consequence, and the building trades are in reality paralyzed.

The Cornells, Jacksons and builders representing the side of capital in the struggle are loath to acknowledge that the situation is really as deplorable as has been indicated. They contend that the places vacated by the strikers are being steadily filled by non-union men, and that work is progressing quite sat-isfactorily, though not so rapidly as it might under more favorable auspices. The fact remains, nevertheless, that where

a few weeks ago, where the strike was in-augurated, all was life and bustle, to-day stience and a lack of everything indicating progress prevails.

Thousands of men are walking the streets in idieness or lolling languidly about the places where the strikers are wont to congregate, watching and waiting in vain for some intimation of an approaching settlement of

the costly difficulty.

Estelle's Bridle Slips and Kills Her Chances.

The news that the "Big Four" of the ciation had had a quarrel, which resulted in Laughlin from the Saratoga Association, has caused no end of gossip among turfmen. The prevailing question seems to be, " How will this affect the Hudson County Jockey Club next Winter?" There is no doubt but that the Guttenburg Association will be affected in more ways than one by the disagreement. While the principal stockholders, still there will no things unpleasant for all hands. Messrs Carr and good races are being run. Good, honest racing will always meet with success.

The announcement that Clifton will reopen is an assured fact, notwithet there is a disposition to poon-poon the matter in certain quarters. It is argued that Mr. Engeman and his associates do not own the Clifton track, and that the property was sold many months age. It is true that Mr. Engeman does not figure as the owner of the Clifton track. It is also true that a sale did take place, but no one believes that this was bona fide or that Mr. Engeman ever relinquished his control of Engrman ever relinquished his control of the property. It is a fact, however, that when his geman announced his inteation of racing against Monmouth Park on Saturdays, then the politicians interested in the long Branch course (and they are the most influential in the State) induced Engrman to change his mind, guaranteeing him protection in case he wished to reosen at Ciffton.
